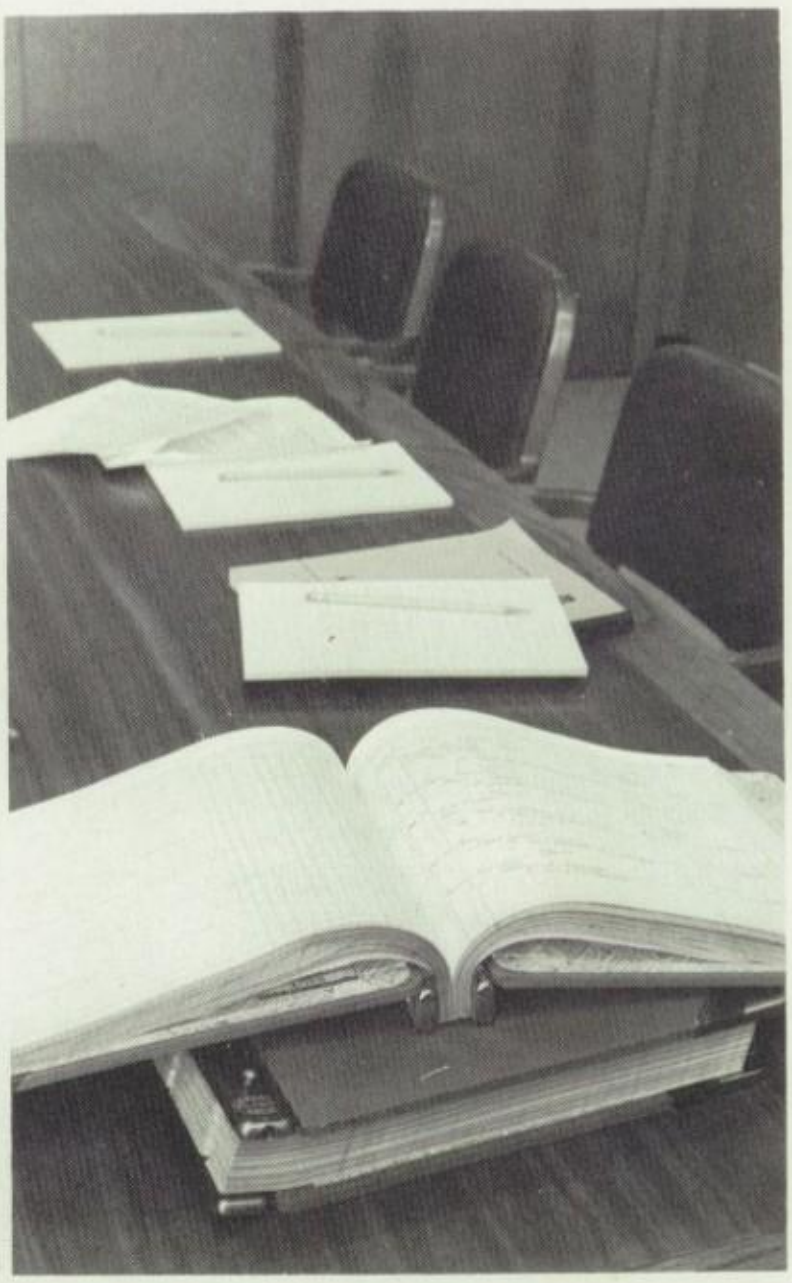
ADMINISTRATION



Class of 1970:

Tennyson once uttered this prophetic lament:

Ah, what shall I be at fifty,
Should nature keep me alive,
If I find the world so bitter
When I am but twenty-five?

History will record that not only did you complete your senior year, during the past year, but that it was also the year during which man first set foot on the moon. Today, only a pessimist believes the sky's the limit!

Your years in school have been marked by tremendous scientific and social changes. The future, contrary to Tennyson, is bright if you dedicate yourself to this end: that your life will make a difference to yourself and your fellow men.
